TV MOUNTS

Alle Linien im Überblick.

Die perfekte TV-Halterung ist der Schlüssel zu einem großartigen Fernseherlebnis. Der richtige Blickwinkel, optimale Flexibilität und ein ansprechendes Design sind dabei die entscheidenden Faktoren. Um schnell und sicher den Weg zum idealen Produkt zu weisen, sind die TV-Halterungen von Goobay in die Kategorien FIXED, TILT und FULLMOTION unterteilt.

FIXED

For almost invisible mounting

- Minimal wall clearance
- Fixed viewing angle

TILT

Prevents unwanted light and reflections

- Minimal wall clearance
- Adjustable viewing angle
- Tilttable

FULLMOTION

Watching TV from different positions in the room

- Minimal wall clearance
- Freely adjustable viewing angle
- Tilttable & swivelling
- Extendable

VESA compatibility & maximum weight capacity

VESA standard

The VESA standard specifies the threading distances on the back of a television or monitor in millimetres. If the horizontal and vertical hole spacings are both 400 mm, the VESA measurement is 400 × 400 mm. When purchasing a mount, always ensure that it is VESA-compatible with your TV or monitor.

Maximum load capacity

For a safe installation, the weight of the device used must not exceed the maximum load capacity of the mount.

Captivating ultraslim aesthetic.

The minimalist, ultraslim mounts are designed for super-flat wall mounting, effectively showcasing particularly slimline TV sets. For a harmonious look and a clean finish with minimal wall clearance.
